

# SECURING OUR GLOBAL PRESENCE BY INVESTING IN OURSELVES.

BONNEY FORGE

## Bonney Forge Corporation Acquires Bonney Forge Europe

It's pretty simple, really. Since 1987, Bonney Forge has been the exclusive partner for Bonney Forge Europe (BFE) products in the U.S., Canada, and the Caribbean. Now, we've expanded our global footprint in manufacturing industrial valves and fittings by completing the purchase of BFE. The company will continue to be known as BFE – a subsidiary of Bonney Forge Corporation.

As one of the world's leading manufacturers of forged steel valves, cast steel valves, forged steel fittings, unions and branch connections, our commitment to excellence in producing the highest quality products makes this acquisition a significant alliance in the international market.

What better way to grow worldwide than to invest in a company we know and trust ... ours.
