

TO: All Stocking Distributors
FROM: Michele Jones
DATE: April 11, 2022
SUBJ: Forged Steel Valves FSV-834

Effective May 2, 2022, the following price increases will be effective for forged steel gate, globe & check valves:

- Carbon Steel/Low Temp. = 10%
- Alloy Steel = 15%
- Stainless Steel = 15%

This increase is precipitated by rising raw material and overall operating costs. Should these costs continue to escalate, we will be required to further adjust our prices accordingly.

All other related terms and conditions remain unchanged.

Once again, thank you for your continued support on all Bonney Forge and WFI product lines.

Sincerely,

Michele Jones
